

## ISLAMIC LUNAR CALENDAR

# 1441 A.H.

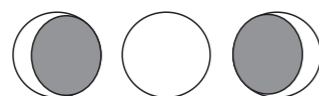

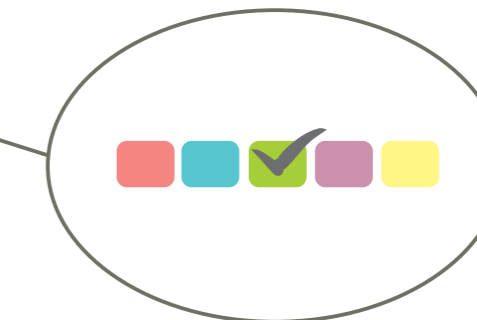

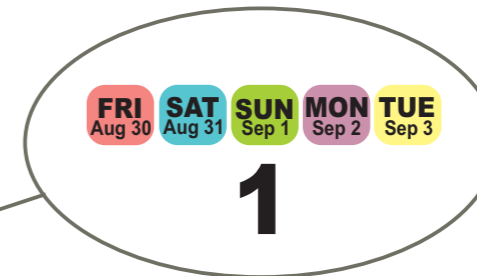

- ☀ Easy to use.
- ☀ Works with actual moon-sightings.
- ☀ Can be used at the same time in different regions having different moon-sightings.

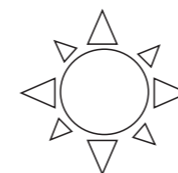

### HOW TO USE

1. Listen for the announcement of the sighting of the new moon for the start of a new month.
2. Look at the corresponding solar date in the coloured boxes directly above the first day of larger lunar date figures.
3. Tick one of the empty boxes arranged on top with the colour matching the one with the solar date.
4. Follow the lunar dates using the corresponding solar dates in the boxes matching the colour of the one you ticked.
5. Even if you miss the announcement of the sighting of the new moon, you can tick any one of the colour boxes based on your estimation of the matching solar date. When you determine the right solar date matching the lunar one, simply tick that colour and follow on through the month easily.

YOU CAN MAKE A ROUGH ESTIMATE OF THE DAY OF THE LUNAR MONTH BY OBSERVING THE SHAPE OF THE MOON.

THE SUN GENERALLY KEEPS THE SAME SHAPE EVERYDAY.

# Muharram

1441 A.H.

2019

Tick the box with the colour matches the first day of the of the month below  
(as based on announced moon sighting in your locality). Then follow dates with the same colour.
